

AMANDA SARAH CHIN

Experience Designer

[linkedin.com/in/amandasarahchin](https://www.linkedin.com/in/amandasarahchin) | amandasarah.me | amandasarahchin@gmail.com

Experience designer with 3+ years on Singapore's national learning platform, serving 500,000+ users on web and mobile, plus industry projects in aviation and healthcare. Turns multi-stakeholder problems into clear direction through research, facilitation and design, from design systems to brand voice. Background in teaching and learning design; MA in World Literature focused on the ethics of algorithms.

EXPERIENCE

Product Designer

Jan 2024 – Present

The Singapore Student Learning Space (SLS), Ministry of Education

Singapore

- Redirected 2 six-figure builds after research with 30 participants showed they wouldn't solve the real user problem; aligned senior stakeholders on and shipped a redesigned search, preferred by 67% of participants.
- Facilitated 4 workshops with vendors, cross-functional teams and director-level leadership, including a visioning session and 3 problem-discovery sessions producing builds adopted by the release roadmap.
- Set design direction and quality for a 4-month, vendor-built design system refresh across 90+ components and patterns, focusing full redesigns on the 6 most-used flows.
- Defined SLS's first brand voice, with consideration for AI governance rules, and turned it into UX copy guidelines across 37 UI elements and patterns, replacing 2 conflicting sources.
- Secured leadership buy-in to add accessibility to the national roadmap and design system refresh, shipping keyboard and screen reader fixes on the 2 highest-traffic pages.

Freelance UX Designer

Oct 2022 – Jan 2023, Apr – May 2024

CuriousCore

Remote

- Raised user confidence in AirAsia (SEA)'s booking flow by 40% and cut its perceived complexity by 27%, leading a team of 3 running research and prototype iterations.
- Lifted The Nutrition Clinic (SG)'s System Usability Scale score from 64 to 89, moving it from below average to excellent, through usability research and prototype iteration.

English & Literature Educator

Jan 2021 – Dec 2023

Ministry of Education

Singapore

- Promoted 1.5 years ahead of schedule for leading the end-to-end design and rollout of an annual curriculum roadmap serving 420 students.
- Earned national recognition from the Academy of Singapore Teachers for designing and facilitating 3 edtech workshops for 50 educators.
- Facilitated 21h a week of interactive lessons for classes of up to 40 students, using games and tech tools to drive participation; led one main class to become the top-performing class in the level.
